To Whom It May Concern:

Abrams has been using Kleenoil for four years. We have filters installed on thirty units and have gone from 5000 kms to 80000 kms between oil changes. We began by doing oil sampling to check oil condition. We are currently trying small systems on G.M., one ton auto transmissions and continue to install Kleenoil systems on new trucks as they arrive.

Yours truly,

Paul Gaudin  
Fleet Service Manager
